1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 4-7 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wanzor in view of Brushaber, Foley et al, and Adams. Wanzor discloses the basic claimed structure including a drink holder for use with a fishing rod holder with a rod portion 26 consisting of a hollow cylinder, a cup portion 22 consisting of a hollow cylinder and a pivoting structure to allow the cup and rod to be secured in any desired angle. Not disclosed by Wanzor is a ratcheting connection, a wing nut and bolt, and slots. Brushaber teaches a ratcheting connection. Foley et al teach a wing nut and bolt 24. Adams teaches slots 66. It would have been obvious to a person of ordinary skill in the art at the time the invention was made to form the device of Wanzor with a ratcheting connection as taught by Brushaber for a more secure connection, to use a wing nut and bolt for ease of adjustment as taught by Foley et al, and to form the rod with slots for improved angular adjustment as taught by Adams. Additionally, the particular claimed dimensions would have been an obvious choice of engineering design to a person of ordinary skill in the art at the time the invention was made for improved strength and low cost.
- 3. Claims 4-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no antecedent basis in the claims for "the orientating pin" (line 3, claim 4).

- 4. The following is a quotation of the first paragraph of 35 U.S.C. 112:
 - The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
- 5. Claims 4-10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The original disclosure does not appear to contain 4 slots.
- 6. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: The specification does not contain the claimed subject matter of the 4 slots, the claimed diameters and degree, the smaller diameter shallow ring and the ratchet depression.
- 7. Applicant's arguments with respect to claims 4-10 have been considered but are moot in view of the new ground(s) of rejection.
- 8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Avila whose telephone number is 571-272-6678. The examiner can normally be reached on Monday to Thursday from 7 AM to 3 PM (EST).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Samuel J. Morano can be reached on 571-272-6684. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
